## B MOTHER COVER BOX

## C BATMAN FOLDABLE

On my down time, I enjoy creating paper foldables of my favorite characters. I use a template that I've created that is both easy to construct and durable enough for children to play with.

# CHICKASAW OUTPOST

I was tasked with creating a signage system that would direct customers to a small gift shop located inside of a theatre.

I re-worked the branding system and created a rendering of a potential sign. The new sign would compliment the existing theatre signage and be mounted under the exterior overhang. Static clings were added to the doors to further avoid any confusion of the shops' locale.

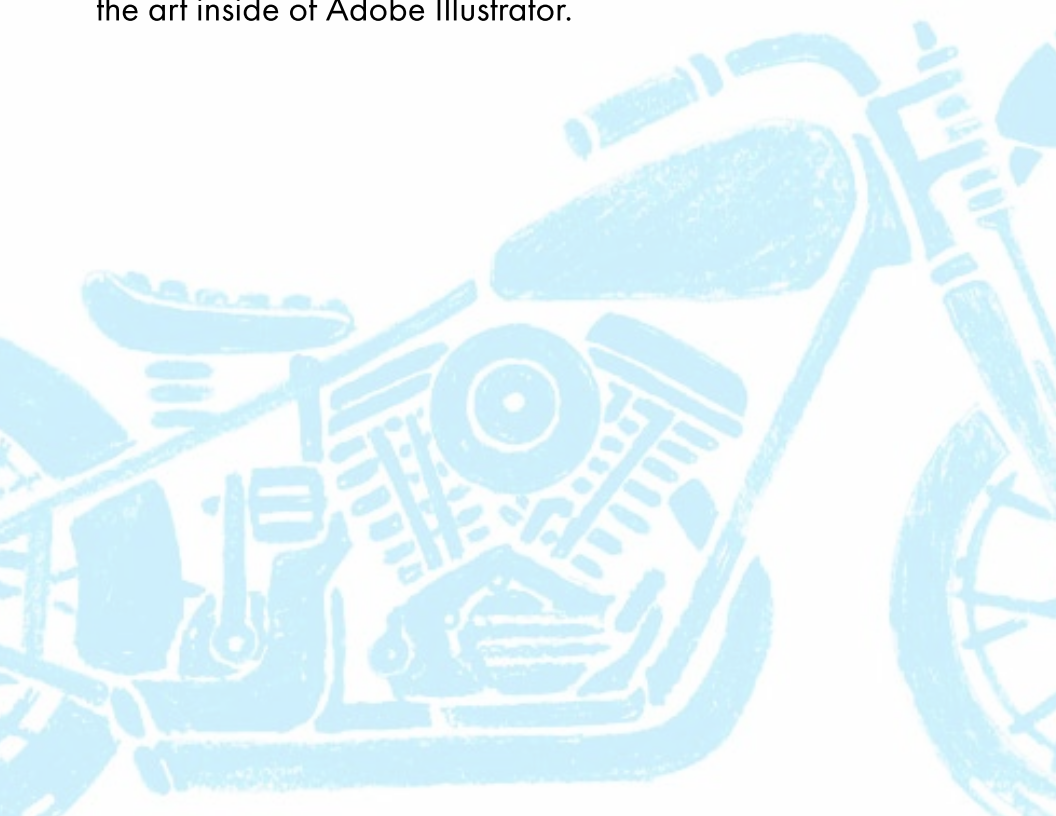

# MERCY POKER RUN

Mercy Hospital hosted a poker run across Southern Oklahoma and was in need of a shirt to commemorate the event.

I pitched a one-color design with a distressed and hand made quality and the client loved it. I drew up a subtractive illustration of a vintage bike, hand-lettered all the wording and an entire font system. I later scanned in all the pieces, assembled and vectorized the art inside of Adobe Illustrator.
